

Unit 3E – E-mail

Level 3

Pupils begin to organise their tasks and use ICT to create, organise, amend and present information and ideas. They find information from a range of given sources and use ICT to search, sort and/or graph data to follow simple lines of enquiry. Pupils understand how changing one variable affects another in models or simulations. They store and retrieve work independently. Pupils send and receive information electronically, with support. They understand the use of a range of input and output devices.

Teacher commentary:

In this unit children learn how to send and receive emails. They have emailed other classes in the school for help or advice linked to their current class work.
